

DevelopAKUre – AKU Clinical Trials

Introduction

DevelopAKUre is a collaborative effort involving Sobi, AKU Society, ALCAP, Royal Liverpool Hospital, Necker, National Institute of Rheumatic Diseases, Institute of Molecular Physiology and Genetics, Nordic Bioscience, PSR, and Cudos. The goal is to accelerate the development of AKU clinical trials.

Objectives

DevelopAKUre is an FP7 project with 3 main objectives: 1) Accelerate the development of AKU clinical trials, 2) Increase the number of AKU clinical trials (SONIA1, SONIA2), and 3) Increase the number of AKU clinical trials (SOFIA).

DevelopAKUre is a collaborative effort involving AKU Society, ALCAP, Royal Liverpool Hospital, Necker, National Institute of Rheumatic Diseases, Institute of Molecular Physiology and Genetics, Nordic Bioscience, PSR, and Cudos. The goal is to accelerate the development of AKU clinical trials. We are currently fundraising on Indiegogo.

AKU Society is currently fundraising on Indiegogo.
