

How to use the EUPATI Toolbox - User Guide

Welcome to the EUPATI Toolbox!

This step-by-step guide is intended to aid users in navigating the Toolbox in order to ensure a smooth, user-friendly experience when browsing the platform.

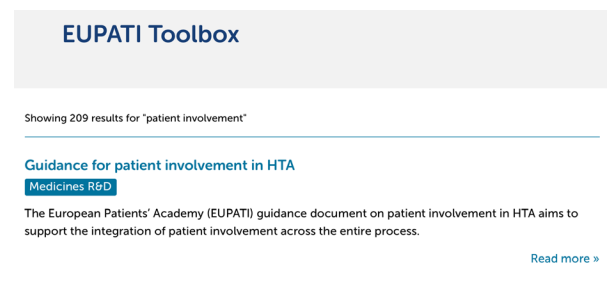

1. What language will you be searching in?

At the moment, the Toolbox contains information in 13 languages (nonetheless, the Toolbox is continuously expanding and will soon be available in more languages). You can select your desired language in the upper right-hand corner of the webpage and begin your search.

2. The Toolbox front page

Once you are on the main page of the Toolbox, there are a number of options for you to begin browsing.

If you already have a specific research area in mind, you can simply use our search tool to find related content. The drop-down bar will suggest some relevant literature before you hit 'enter', and showcasing all the articles within this subject area.

From here, if you would like to refine your search, you can do so by utilizing the sidebar menu. This allows you to sort the results by their relevance, title, or date. Moreover, you can further specify the search by selecting categories and tags that are of interest to you.

As shown below, through the filtering process, the search results were refined from 209 to 8. This tool facilitates research, especially when looking for a specific source.

Showing 8 results for "patient involvement"

The benefits of patient involvement in HTA processes

Medicines R&D

In this video, three patient advocates discuss the benefits of patient involvement in HTA processes.

[HTA ?](#)

[Pharmaceutical Development ?](#)

[Safety of Medicines ?](#)

[Non-Clinical Studies ?](#)

[Pharmacoepidemiology ?](#)

[Types of Medicines ?](#)

If you do not know what a specific topic entails, you can hover your mouse over the 'question mark' icon, which will provide a brief definition of the term.

[Types of Medicines ?](#)

Explanation of traditional and innovative medicine types and perspectives of use.

3. Content Available

The EUPATI Toolbox hosts a variety of materials related to Medicines R&D. This includes articles, presentations, videos, webinars, starter kits, factsheets, guidance documents, infographics, and glossary items.

Aside from the main articles that are found on the Toolbox, the EUPATI guidance documents and Webinars are core products that EUPATI offers. These can easily be found in the upper right-hand corner of the page.

Please note: The guidance and webinars are currently only available in English.

4. Glossary

If you are looking for concise definitions and explanations concerning specific terms, you can look for this in our glossary. The glossary includes all relevant Medicines R&D terminology, as well as important acronyms.

Thank you for using the EUPATI Toolbox. Overall, the purpose of this service is to educate and provide trustworthy resources for users — these are usually produced by EUPATI partners working on a specific area, and reviewed by an Editorial Board to ensure quality standards. We hope that you are able to find helpful information and find this tool useful.
